

Diagnostic Devices, Inc Refreshes Web Site

Diagnostic Devices, Inc.(DDI), the makers of **Prodigy® Blood Glucose Meters** (Charlotte, NC) rejuvenated its website with a fresh, clean look and new features. Enhancements to the site include improved navigation, detailed information about the meters, a Living Well with Diabetes™ page, and testimonials from satisfied customers. The website also includes information about the company's passion for creating accurate, safe, and easy-to-use blood glucose meters and test strips. It also includes a diabetes camp page for children with diabetes and shows the company's commitment to all age groups with diabetes. DDI is honored to announce www.prodigymeter.com has been granted the Nonvisual Web Accessibility Certification (Gold Level) from the National Federation of the Blind (NFB) in recognition of being accessible to the blind. For more information, check out the newly enhanced website at prodigymeter.com.
